WARRANTING THE INTERACTIONAL RELEVANCE
OF CATEGORIZATIONS

Meeting 19.: 15 Oct 87:	Not transcribed.
-------------------------	------------------

(*) Many topics and sub-topics were discussed at each meeting of the seminar. The topic listed here for each meeting was the central focus of the meeting, but does not reflect the range of issues considered. Further details about meeting topics can be found on the first page of particular meeting transcripts. "Discussion" meetings were topically 'open'. The first page of the relevant transcripts should especially be consulted for a listing of topics for these sessions.
